

Ace Wire Spring & Form Co., Inc. – Making the Fast 50 List
Fast 50: Pittsburgh’s Fastest Growing Companies
presented by the Pittsburgh Business Times

Pittsburgh, PA, Aug. 26, 2022 - Ace Wire Spring & Form Co., Inc. is honored to announce it has won a place on the Fast 50 list. The Fast 50 are privately held, Pittsburgh-based companies ranked by revenue growth between 2019 and 2021. The Pittsburgh region’s proud winners were honored at this event last night, presented by the Pittsburgh Business Times.

Ace Wire Spring & Form, an industry leader in the manufacturing of Compression Springs, Extension Springs, Torsion Springs, and Wire Forms, has been family owned and operated for over 83 years. Located in McKees Rocks, PA, Ace Wire Spring & Form recognizes and congratulates its fellow finalists who made the Fast 50 list.

In 1939, Ace Wire Spring & Form started out in the industry with a small coiling machine making garter springs by hand. The owner, Joseph Vodvarka, was a machinist, working hands-on in the upstairs room of his house, which was converted into a small office / shop to produce the garter springs needed at the time. Through the years, Ace Wire Spring & Form grew, and the belief of family was always a part of it. In 1976, Joseph Vodvarka’s daughter, Linda, and her husband Rich Froehlich, bought the company and continue to keep Ace Wire Spring & Form a family owned and operated business. The Froehlichs have a strong belief in family and carry over that belief into the Ace Wire Spring & Form culture when doing business. Customers benefit from this by receiving personalized customer service, engineering assistance, and a quality final product suited to meet their needs. In turn, Ace Wire Spring & Form is the one who thanks the customers for making it possible for Ace Wire Spring & Form to be celebrating being in business for 83 years.

About Ace Wire Spring and Form Company, Inc.

The 83 years of experience that Ace Wire Spring & Form has allows them to offer a wide variety of custom precision springs. They have a first-class team of on-site engineers to assist customers with developing solutions for a large variety of applications, along with their on-site quality control staff. Their veteran craftsmen working in the shop are trained in the latest and most advanced forms of mechanical and CNC wire forming machines and techniques and have a combined 100 years of experience and success within the industry. The benefit Ace Wire Spring & Form delivers to companies time and time again is that it understands their customer’s needs and meets their requirements while delivering a quality product.
